Supply Building Action Plan: What Should We Do Next?

Purpose and Goals:

Create a support system for infant and toddler caregivers that is accessible and based on research and best practices.

- Create competencies, knowledge and skills (CKS) for infant and toddler caregivers.
- Create a system for training and technical assistance that makes CKSs accessible for infant and toddler caregivers.
- Create or revise Early Learning and Development Guidelines (ELDG) for infants and toddlers that are research based, developmentally appropriate and user friendly.
- Encourage coordination of technical assistance and implementation of ELDG with other infant and toddler stakeholders (for example, licensing, QRIS, Early Head Start).
