The Program for Infant/Toddler Care Six Essential Program Practices for Relationship-Based Care

These papers promote evidence-based program practices that support infant/toddler care.

About the Infant/Toddler Resource Guide

What is the purpose of this guide?

This Resource Guide offers a host of materials to support the development and implementation of policies and practices for high-quality care for infants and toddlers. Whether you are a Child Care and Development Fund (CCDF) Administrator developing policies, a child care provider seeking information and guidance, or a professional development provider seeking innovative training materials, this site is for you. Development of this guide is new and actively growing, so check in frequently to see what resources have been added to support your work with infants, toddlers, and their families.

Who are the intended users?

We are including resources for three primary audiences:

- CCDF Administrators, staff, and state policy professionals
- Child care resource and referral administrators, training organization directors and trainers, higher education institution administrators and early childhood/child development faculty, and technical assistance organization administrators and providers
- Infant and toddler teachers, center directors, and family child care providers

Child Care State Capacity Building Center, a service of the Office of Child Care, Administration for Children and Families (ACF), U.S. Department of Health and Human Services. (n.d.).
