CCDF enacts new requirements for license-exempt providers ...

... bringing them into a system with which they are unfamiliar.

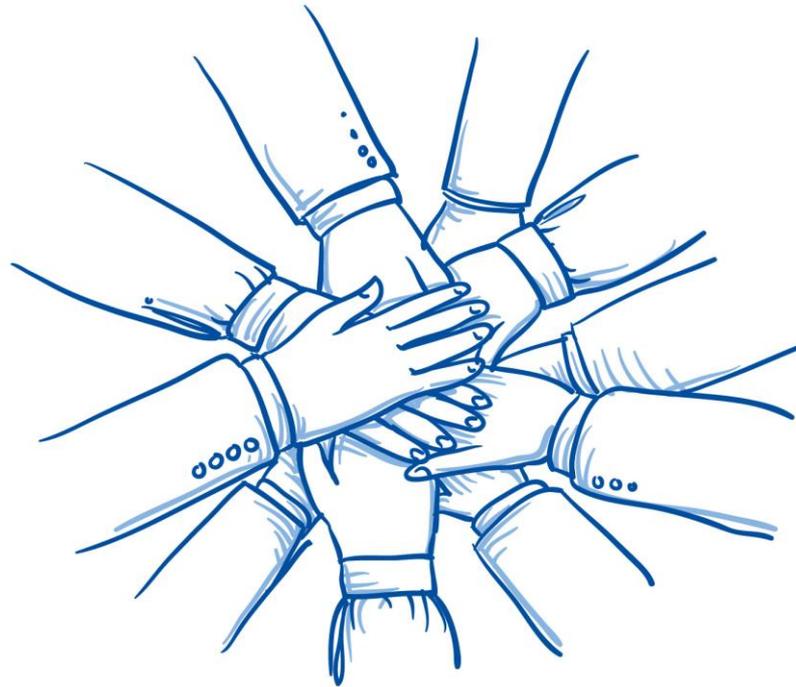

We want providers to succeed in this regulated system.

And we want children to be healthy, safe, and engaged.

You are working hard to implement the best system for license-exempt providers.

So let's talk about how it is going.

Objectives

- **Learn** about different models of monitoring and supporting license-exempt providers.
- **Share** your own successful strategies.
- **Identify** opportunities for supporting license-exempt homes in your state or territory.
