

2015 CCDF State and Territory Administrators Meeting (STAM 2015)
July 13–15, 2015 at the Westin Alexandria

Discussion Worksheet

Who could you create a new or stronger partnership with to support CCDF work around homelessness in your state? In your local communities?

What would be required in your state to make homeless children a prioritized population for subsidy services?

In what ways can you implement the CCDF outreach and training requirements? (Training and technical assistance on identifying and serving homeless children and their families; and specific outreach to homeless families)

Is there something new you learned today that you could take action on when you return home?
