Strengthening Statewide Family Engagement and Leadership in North Carolina

State Level Family Engagement Coordinator
Family Engagement & Leadership Coalition

- DCDEE and North Carolina Partnership for Children (NCPC) organized a cross-sector group of 74 to design and create a Framework of best practices for strengthening family engagement and leadership in the context of early childhood.
Family Engagement & Leadership Coalition

• Using an inclusive model of community engagement, the Coalition met in a series of six meetings in 2019 to create and endorse the final draft of the North Carolina Framework for Family Engagement and Leadership.

• The Project Leads, with guidance from an Accelerator Team, designed the overall process, planned Coalition meetings with state, local and family representatives, and researched best practices from both within North Carolina and around the country.
Family Engagement is the process of building genuine relationships with families to help children grow and thrive. Family engagement means doing *with*—not *for*—families.
