Families are able to receive child development information via the Louisiana Believes and School and Center Finder website. They also receive guidance and support in selecting a provider through two primary sources:

1. local coordinated enrollment process, and
2. CCDF Lead Agency.

The CCDF Lead Agency and Resource and Referral agencies worked with each community in the state to develop a local coordinated enrollment system that supports families needing early childhood services through a simplified process where a family can go to one place and learn about and enroll in child care, Head Start, and Pre-K. The CCDF Lead Agency website connects families to licensing information, quality information, and general guidance on selecting among early childhood options. During the application process the applicant is asked if the child has an IEP, IFSP or receive SSI. Child care providers receive a higher reimbursement to make modifications for children who are in need of special needs care.

Consumer Education Website

<p>How the Lead Agency ensures that its website is consumer-friendly and easily accessible</p>	<p>The Louisiana Department of Education has recently reorganized the early childhood website to make the available resources additionally consumer-friendly and easily accessible. By organizing the set of resources into common populations of website visitors (families, teachers, lead agencies, child care providers) the public is more easily able to access the materials they are seeking. The website includes information to assist families in understanding the policies and procedures for licensing child care providers that is linked throughout. We also launched a new family friendly school and center finder website that includes provider-specific information, monitoring and inspection reports for the provider, the quality of each provider, the age ranges the provider serves, and shows where they are located visually on a map. Families are also able to compare multiple sites to choose the provider that is best for them.</p>
<p>How the website ensures the widest possible access to services for families that speak languages other than English</p>	<p>The Louisiana Department of Education posts commonly accessed resources in multiple languages on the website. This includes resources commonly accessed by families and teachers. In cases where this is not sufficient, the LDOE has a contract with Language Link which can provide translation to over 240 languages/dialects. Additionally, the Louisiana Department of Education website can be translated in 103 languages through a selection option visible on the left hand corner of the site.</p>
<p>How the website ensures the widest possible access to services for persons with disabilities</p>	<p>The LDOE has adopted Section 508 of the Rehabilitation Act and the World Wide Web Consortium’s (W3C) Web Accessibility Initiative standards and guidelines as the benchmark to meet the objective of achieving universal accessibility for web sites. All LDOE web sites are designed to meet or exceed all Section 508 requirements and all Web Content Accessibility Guideline (WCAG) Priority 1 checkpoints and Priority 2 and 3 checkpoints as needed. Many of the WCAG Checklist of Checkpoints for Web Content Accessibility are incorporated into Section 508 of the Rehabilitation Act, which establishes accessibility standards for federal agencies.</p> <p>The LDOE is currently expanding the processes and options for access for persons with disabilities. The LDOE is developing a process which will enable the collection of any request or complaints regarding accessibility of the webpage and related documents.</p>
