

STATE/TERRITORY PROFILE - NEW MEXICO

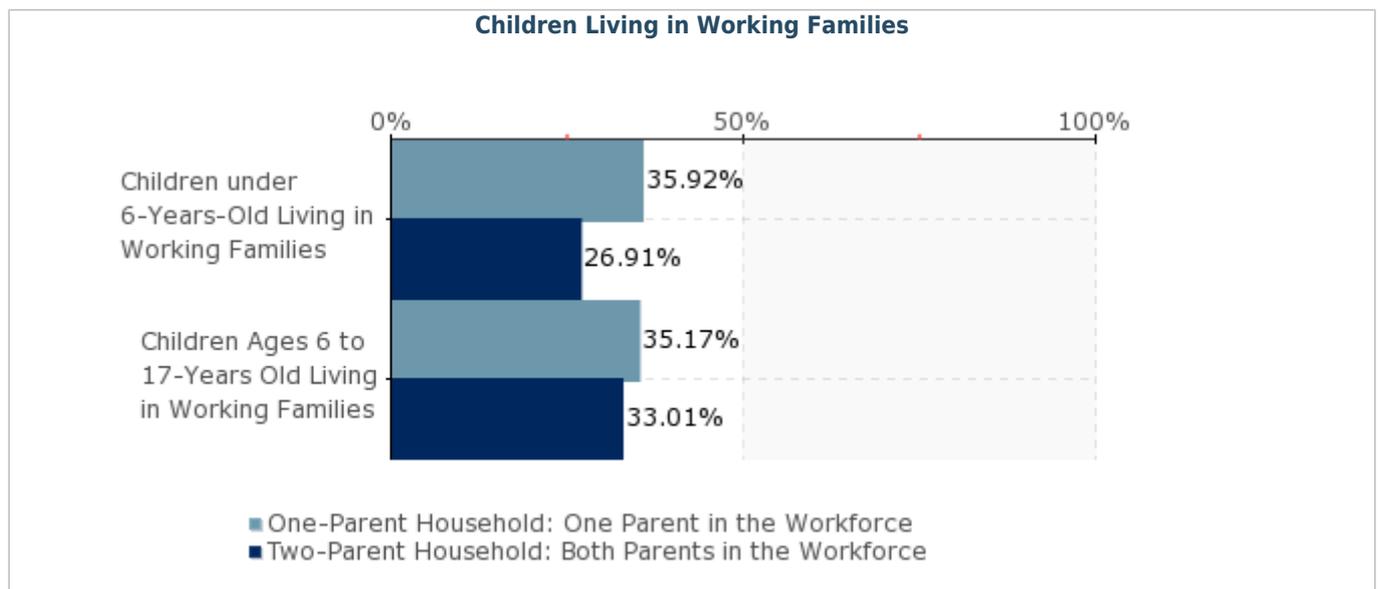

This profile highlights a current innovative effort to promote a subsidy system that is child-focused, family friendly, and fair to providers. It also provides demographic information, Early Care and Education (ECE) program participation and funding, subsidy innovation and program integrity information, program quality improvement activities, and professional development and workforce initiatives. Sources and links are provided at the end of the document

Outreach to Families with Limited English Proficiency

Application in other languages (application document, brochures, provider notices)	Yes
Informational materials in non-English languages	Yes
Website in non-English languages	Yes
Lead Agency accepts applications at local community-based locations	Not available
Bilingual caseworkers or translators available	Yes
Bilingual outreach workers	Yes
Partnerships with community-based organizations	Yes
Other	Yes
Describe Other	Described Below

The Pulltogether.org is a movement and website dedicated to provide outreach to families and community partners including those whose language is not English in finding resources in their community. Through this process the Am I Eligible page-survey is created to assist families in identifying possible resources available and the eligibility possibilities. Through this process, families can also submit an application for Child Care Assistance. In the next upgrades for the site, the feature to submit documents electronic and set up an appointment will be included. The site will also be linked to the CYFD.org portion that includes income guidelines and copays so that families can look at those guidelines as they apply for child care assistance.

Source(s): U.S. Department of Health and Human Services, Administration for Children and Families, Office of Child Care. (2019). Consumer Education Website

How the Lead Agency ensures that its website is consumer-friendly and easily accessible

New Mexico CYFD’s consumer education website redesign project has been explicitly geared towards user experience design features of multiple languages, formats to support individuals with disabilities, and plain language usage. In addition, a lot of attention has been placed on making ensuring it is consumer friendly and easily accessible to all of our target audiences. Please see the highlights of this work below.

Navigation

Organization of sections is intuitive and geared towards two specific target audiences - Caregivers & Educators and Parents & Families.
 We provide navigation tabs and a link to the homepage from every page on the website.
 Fewer clicks are needed in our updated site to navigate to any set of information. In most cases, desired information can be accessed within three clicks.
 We display a statement of content ownership or management on every page with appropriate logos for LA.
 We provide contact information with address, email, phone number, and a google map under a “Contact Us” page.
 We include a website search function to help users easily locate information to the top right of the homepage under the tab bar.
 404 messaging shows in any link that is broken and a broken link checker tool is used on a weekly basis.
 Attention is paid to multiple user vantage points - target audiences include families, community, service providers (including child care providers). Tab sections are clearly labeled for Caregivers & Educators and Parents & Families.
 We involved our digital communications specialist from the beginning of the redesign project.
 Multiple device use - attention is paid to using a mobile-friendly, responsive design. (We are using WordPress tools).

Readability

We avoided jargon. We use short direct sentences using plain language.
 We developed content with a mind toward minimal text and content on each page.
 Consistent and clean format and design across pages.
 Use of culturally appropriate pictures related to content - clean format with alt text for screen readers.
 Readability level - Website is currently at the 9th grade reading level; we are implanting changes to bring most text (excluding regulations and titles) to an 8th grade level. We will implement a website readability calculation tool to ensure the site meets 8th grade Flesch-Kincaid reading level.
 We use consistent text in Arial or Calibri 10-14 pt font for all content.
 All downloadable docs are in PDF format. PDFs are more accessible across devices, embedded tools for ADA compliance.
 We use a Google Languages plug-in - many of our documents are translated directly into Spanish (the primary second language in our state).

Access to CCR&R

Web searches now use Google Maps for better geo-locating; address is suggested as text is typed. Distance from address is also now required to better serve our urban and rural populations.
 No login is required for web search.
 Each provider listing on the search contains info about type of care, quality, ages served, hours of operation, environment, experience with special needs, etc. as well as multiple modes of contact for the program.
 Easily navigable child care web search to access individual Inspection Reports for each provider.
 Information on quality child care is easily accessible for families and programs.
 A statewide Home Visiting program web search is also available on the website.
 Clear links to state’s new online Child Care Assistance application for families.
 Clearly listed statewide referral hotline for referral to child care and many other family and community support services.

Access to Consumer Information

Consistency across state and national agencies for consumer education materials and messaging. Site contains consumer ed resources around health and safety, child development, developmental screenings, safe sleep, shaken baby, family engagement, benefits of home visiting and quality care, social and emotional development, product and transportation safety, and much more.
 Site also contains hotlines (state and national) are prominently listed on the sidebar of many of the web pages, including the number for reporting child abuse.
 Resources were reorganized onto one web page with accordion drop downs into clearly labeled categories and subcategories.
 Resource links are labeled in understandable, descriptive language with the link embedded.

Links to Spanish materials are presented in that language.

<p>How the website ensures the widest possible access to services for families that speak languages other than English</p>	<p>The NM Kids CCR&R website and phone line also has information in Spanish available to parents, providers, and the general public</p>
<p>How the website ensures the widest possible access to services for persons with disabilities</p>	<p>New Mexico CYFD's consumer education website redesign project has been explicitly geared towards user experience design features using formats to support wide access for individuals with disabilities. Please see the highlights of this work below.</p> <p>NewMexicoKids.org is accessible using a PC, MAC, tablet, or smart phone with internet connection</p> <ul style="list-style-type: none"> Web design is responsive Website content automatically adjusts to fit device Print option is available on all pages and links <p>Feedback is accepted via email or telephone, contact information is easily accessible</p> <ul style="list-style-type: none"> Documents posted are available in multiple formats, including PDF and Word All webpages are designed to be viewed in users browser and operating system <p>All webpages, documents and links are tested in development prior to being added to the production site</p> <ul style="list-style-type: none"> All staff are informed of website accessibility policies and procedures Appropriate staff are trained on policies and procedures to ensure implementation Audio and Video files include captions Written policy for accessibility is available and accessible <p>Content is added to development environment and tested prior to being added to the production site</p> <ul style="list-style-type: none"> Information is readable with Screen Reader <p>Website is tested weekly for ADA compliance percentage based on current content and content changes</p>
